APEX SERIES

9/17/26 TIG TORCH KIT

SKU: U42009

APEX KIT BREAKDOWN

17/18/26 PARTS

- Gas Lens Assembly - 1.6mm
- Gas Lens Assembly - 2.4mm
- Gas Lens Assembly - 3.2mm
- Wedge Collet - 1.6mm
- Wedge Collet - 2.4mm
- Wedge Collet - 3.2mm
- Back Cap - Short
- Back Cap - Medium
- Back Cap - Long

9/20 PARTS

- Gas Lens Assembly - 1.6mm
- Gas Lens Assembly - 2.4mm
- Wedge Collet - 1.6mm
- Wedge Collet - 2.4mm
- Back Cap - Short
- Back Cap - Medium
- Back Cap - Long

CUPS

- Size 10 Ceramic Cup
- Size 12 Ceramic Cup
- Size 14 Ceramic Cup
- Size 19 Ceramic Cup
- Size 12 Quartz Cup
- Size 19 Quartz Cup

EXTRA PARTS

- Stubby Series Cup Insulator
- Filter Screen Installation Tool
- Gas Lens O Rings (QTY 15)

GAS FILTER SCREENS

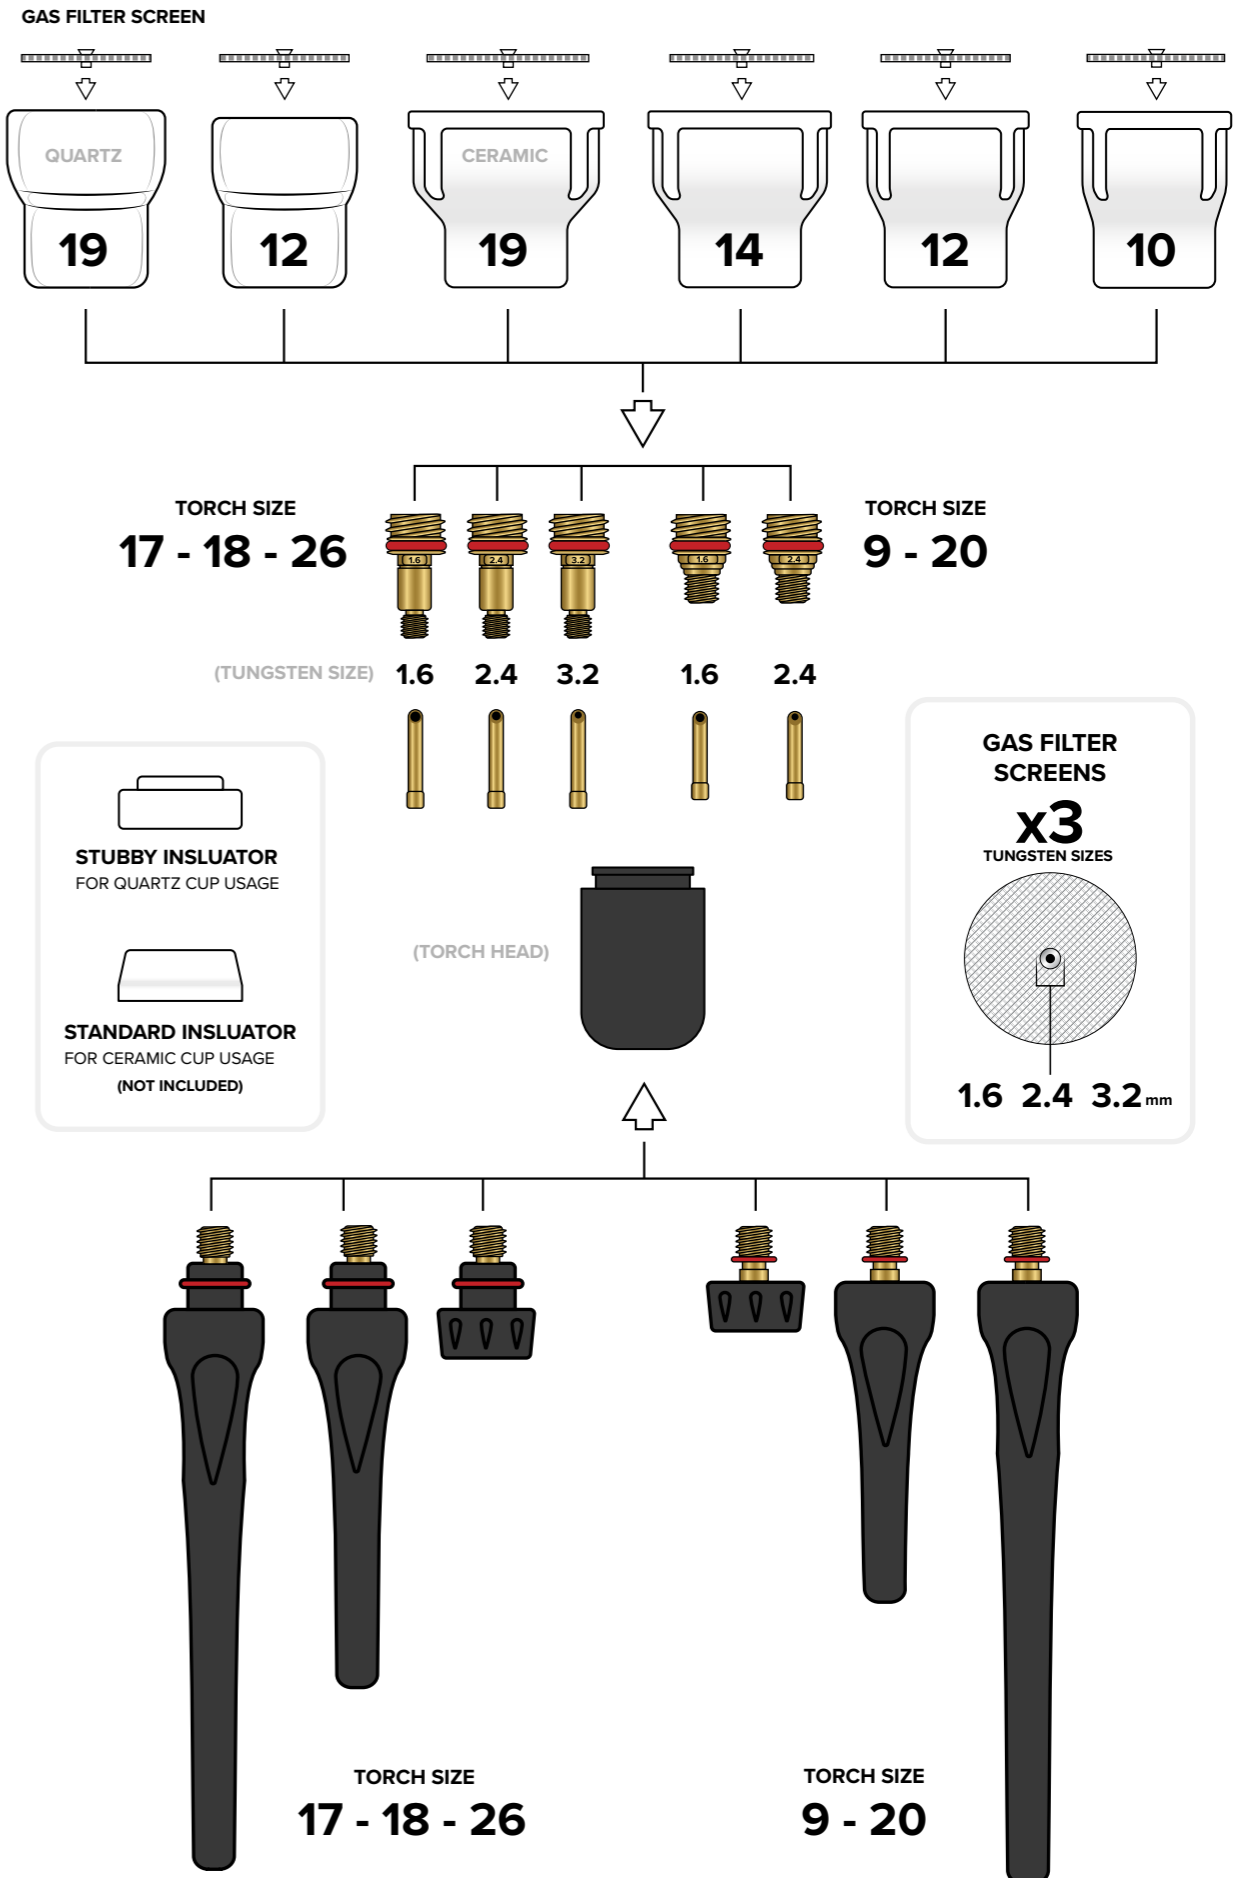

- Size 10 Filter Screen - 1.6mm
- Size 12 Filter Screen - 1.6mm
- Size 14 Filter Screen - 1.6mm
- Size 19 Filter Screen - 1.6mm

- Size 10 Filter Screen - 2.4mm (QTY 2)
- Size 12 Filter Screen - 2.4mm (QTY 2)
- Size 14 Filter Screen - 2.4mm
- Size 19 Filter Screen - 2.4mm

- Size 12 Filter Screen - 3.2mm
- Size 10 Filter Screen - 3.2mm
- Size 14 Filter Screen - 3.2mm
- Size 19 Filter Screen - 3.2mm

APEX TORCH ASSEMBLY

Introducing the APEX Series TIG Torch Kit

This comprehensive gas lens and cup kit is designed to cater to all sizes of commonly available TIG torches, ensuring you never have to worry about compatibility issues again. Say goodbye to the hassle of searching for individual parts, as the APEX Series TIG Torch Kit includes everything you need in one convenient carry case.

Covers torch sizes 9/20 and 17/18/26

Engineered to work flawlessly with all commonly available universal TIG torches using multiple tungsten sizes, this kit is a must-have for welding professionals and enthusiasts alike.

Tackling a tricky weld?

Trouble seeing your tungsten? Need to weld in a tight spot? The APEX kit offers a comprehensive solution, equipping you with all the necessary components to conquer even the most challenging welds. Stick your tungsten out further without compromising gas coverage using a gas lens setup, perfectly paired with an ideal cup size, with three options for back cap sizes. The combination of gas lenses and APEX cups ensures a seamless and consistent gas coverage, whether working in close proximity or at a distance, making it a versatile and indispensable solution for your welding needs.

Quartz or Ceramic?

Why not have the best of both worlds? The APEX Series Kit includes four ceramic cups (sizes 10, 12, 14, and 19) and two clear quartz cups (sizes 10 and 12). This diverse range guarantees that you'll always have the perfect cup at your disposal, precisely when you need it.

UNIMIG
ROGUE

Compact and Lightweight

With shorter cups and three different sized back cap options, the APEX kit allows for ultimate visibility by reducing torch head size and increasing tungsten stick out. This kit allows you to outfit your torch to the specific task at hand increasing the manoeuvrability, reducing the weight of your torch and helping minimize hand fatigue.

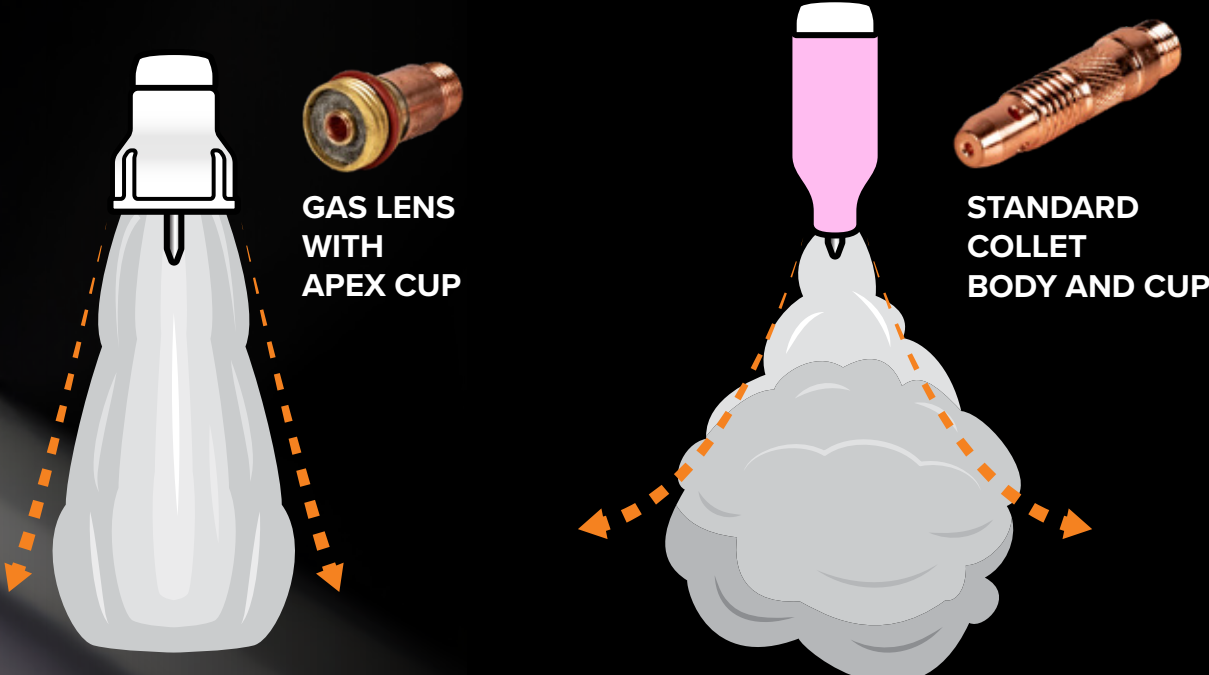

APEX Setup

Standard Collet Setup

Flawless gas coverage when you need it most

The APEX Series Kit is focused around the utilisation of gas lenses along with mesh filtered cups. This combination provides you with smooth and focused gas flow at a greater distance over a standard collet body. Although they do not fully replace the need for standard collet body and cup usage, gas lenses prove to be a great option to expand your TIG welding capabilities.

COMPATIBLE UNIMIG TIG TORCHES

HIGH FREQUENCY SR

SR9

Length	Type	SKU
4 Metre	35/50	SR-9-4MCP50
8 Metre	35/50	SR-9-8MCP50
